

MSc Clinical and Therapeutic Neuroscience Studentships available to start in October 2023

We are pleased to invite applications for the MSc Clinical and Therapeutic Neuroscience Course commencing in October 2023. We have two fully-funded studentships available for outstanding UK and overseas applicants.

The course is designed to provide you with the knowledge and skills of advanced technologies, to conceptualise and run research projects that develop and test novel psychotropic and neurological agents.

The course will offer you insights into a range of fields including molecular biology, brain imaging, behavioural research and epidemiology. It is delivered by pre-clinical and clinical research teams based in the Department of Psychiatry, Nuffield Department of Clinical Neurosciences, and in other University of Oxford centres within the neuroscience community, and in the NIHR Oxford Cognitive Health Clinical Research Facility.

Applicants should have, or expect to gain, at least an upper second class honours degree in any science discipline. Successful completion of a professional training course or professional work experience in the health service or a health-related field may also be considered.

The studentships will include course fees and a stipend (tax-free) of not less than £17,668 per annum. Applicants should apply through the [formal University procedure](#).

For enquiries please contact: Vivian Ansell at vivian.ansell@psych.ox.ac.uk

Deadline for submission of applications: 12.00 midday UK time on Friday 9th December 2022

Interview date: w/c 23th January 2023

Studentship Code: 23PSYCH-PGT-02WEB
